Ontario's Reopening Plan

June 1, 2021

Dear Members of Pikwakanagan:

As Ontario transitions into its newly developed reopening plan, we will continue to stay under state of emergency and follow the rules and public health measures under the provincewide emergency break. The provincewide reopening plan is set to begin Monday June 14th, 2021.

The reopening plan includes 3 steps that is expected to have an interval of at least 21-days between each step, at that time an evaluation will occur along with additional wait times as required.

All reopening steps will be reviewed by the provincial government and are dependant various key public health factors including but not limited too the rate of vaccinations in Ontario, number of cases, number of hospitalizations, number of ICU beds.

Step One has the initial focus on resuming outdoor activities with smaller crowds where the risk of transmission is lower and permitting retail with restrictions.

Step Two which will further expand outdoor activities and resume limited indoor services with smaller numbers of people and with face coverings being worn.

Step Three which will expand access to indoor settings, with restrictions, including where there are large numbers of people and where face coverings cannot always be worn.

Attached is a Roadmap to reopen for further information about the reopening steps and what will be permitted during those steps. This information can also be found at the following link, [Reopening Ontario | Ontario.ca](https://www.ontario.ca/en/govt/reopening-ontario)

Pikwakanagan remains at zero count of COVID-19 cases. The Emergency Response Control Group (ERCG) is acknowledging the hard work and dedication the community is doing to keep our community safe. We must remain diligent in our efforts to combat COVID-19, there is light at the end of the tunnel.

We must continue to follow temporary restrictions and public health and safety measures. To ensure that we remain safe and diligent against the spread of COVID-19.

Always:

- Stay home if you have symptoms, even if they are mild.
- Stay two metres apart from people you do not live with.
- Wear a mask or face covering in indoor public spaces or any time physical distancing is not possible.

Thank you for doing your part to keep Pikwakanagan COVID free.

Healthy diabetic-friendly breakfast ideas that include protein...

- Bowl of plain Greek yogurt with added berries and almonds
 - Greek yogurt has double the amount of protein and less sugar than regular yogurt.
- Scrambled eggs and whole-grain toast
 - The protein, vitamin D and fat in eggs help sustain your energy level and keep you satisfied until lunchtime.
 - You can quickly scramble 1 or 2 eggs in a nonstick pan with a little olive oil. Enjoy your scrambled eggs with a slice of whole-wheat toast.
 - You can also eat 1 or 2 hard-boiled eggs with whole-grain toast.
- Spinach and tomato omelette
 - This will give you a healthy protein-rich treat that also offers an antioxidant boost. The protein in egg whites will help keep you full without affecting your blood sugar. It also slows glucose absorption, which is very helpful if you have diabetes.
 1. Cook a handful of spinach and tomatoes in a nonstick pan with 1 tablespoon of olive oil.
 2. Add the whites of 2 eggs and 1 tablespoon of skim milk.
 3. Finally, add some fresh herbs like basil and parsley or some of your favorite spices.
- Almonds and fruit
 - Eating almonds improves glycemic control and lipid profiles in people who have Type 2 diabetes. Consumption of 2 ounces of almonds is associated with lower levels of fasting insulin and fasting glucose.
- Oatmeal (plain – flavour with a tsp of local honey if needed or some berries)
 - Oatmeal is a good source of both protein and fibre.
- Barley
 - Barley is another healthy breakfast ingredient to help keep your blood sugar level under control. Plus, it has twice the protein and almost half the calories as oats, making it one of the best breakfast foods.
 - Barley can rapidly improve people's health by reducing blood sugar levels and the risk for diabetes. This is due to a mixture of dietary fibers found in barley.
 - To make barley for breakfast:
 - ◆ Soak 1 cup of pearl barley in water overnight.
 - ◆ The next morning, strain the barley and add it in 2½ to 3 cups of water in a saucepan.
 - ◆ Bring it to a boil, then cover with a lid and reduce the heat. Let it simmer for 20 minutes, until the grains are tender and most of the liquid has been absorbed.
 - ◆ Add a little raw honey and nuts to the cooked barley.
 - ◆ Eat it while it is still warm.
