The Algonquins of Pikwakanagan First Nation welcomes Melissa Liedtke. She worked as a head teacher at our daycare in the past, and has now returned to be the Supervisor at Mindiwin Manido. Melissa brings 21 years experience in the Early Childhood Education field and the public school board.

The Algonquins of Pikwakanagan First Nations welcomes Curtis Cook who has joined the AoPFN as Executive Director of Operations this month.

A long-time business consultant specializing in Economic Development, Curtis has worked with First Nations and municipalities across Canada.

He was the Executive Director of the Clayoquot Biosphere Trust in Nuu-Chah-Nulth territory on Vancouver Island as well as Executive Director of the Olds Institute for Community and Regional Development in Olds, Alberta.

Curtis managed Economic Development departments in both Cochrane, Alberta and Lillooet, British Columbia, working closely with St'at'imc First Nations in the latter role.

Great News!

Pikwakanagan

The Pikwakanagan Sports & Recreation Department is happy to announce all season access to the Driving Range at Whitetail Golf Club!

That's right Pikwakanagan Nation from May 1, 2022 to September 30, 2022

You can enjoy hitting balls at NO COST!

There are no tee times required for this all you have to do is show up with your clubs, check in at the Pro Shop and show your status card to the Pro Shop staff member, they will record your name only for statistic purposes!

Pikwakanagan Nation has taken up a real love for the game of Golf and we want to do all we can to see that continue, we want to support your enjoyment in sport and recreation the best we can, so when the season begins get out and enjoy yourself!

This will be a collaboration between programs and services within AOPFN so we say CHI-MIIGWECH to all involved and we will do a more formal acknowledgement at the end of the season!

If you have any questions you can reach Kerry Andrews, Manager, Sports & Recreation at 613-625-2682 or by email at mgr.sports.rec@pikwakanagan.ca

Nurses Week

May 9 – May 15, 2022

The National Nursing Week, this week is important to highlight nurses, increase public awareness to the countless contributions' nurses provide for the well-being of Canadians. In 1971 the International Council of Nurses designated May 12th, the birthday of nursing pioneer Florence Nightingale, as International Nurses Day. Over the last couple decades and various changes, the federal minister of health declared the second week of May as National Nursing Week.

Canada's health care system depends on the commitment and work of Nurses of all designations, working in hospitals, long-term care, community organizations and in client's homes.

With the world in crisis for more than 2 years, battling COVID-19. Nurses and other health-care workers around the world have endured ridiculous amounts of pressure and stress as a result of the pandemic. As nurses do they have risen to the task and stayed committed to delivering and advocating for quality care.

We would like to take the time to provide a special thanks to the nurses who have been making strides in our community to ensure the prosperity and safety of the community of Algonquin of Pikwakanagan every day and throughout the pandemic. Please take time this week show your appreciation to all nurses but, especially our community nurses working with Algonquins of Pikwakanagan First Nation Health Centre, Family Health Team and Tennisco Manor.

Timiskaming Dam Site Visit

The AOPFN Consultation Office is looking for interested AOPFN members to visit the Timiskaming Dam for a site tour lead by Public Services and Procurement Canada, on June 15th, 2022.

Why?

Public Services and Procurement Canada (PSPC) is overseeing the replacement of the Quebec side of the Dam. As part of the Timiskaming Dam Replacement Project, PSPC have provided funding for AOPFN members to visit the Dam, and learn about the project and studies being done to inform the Environmental Impact Statement.

Where?

The Timiskaming Dam is at the Northwest tip of AOPFN unceded Algonquin territory. It is a 3 hour drive from Pikwakanagan. If transportation is needed, or if you'd be willing to help carpool, please let us know.

Spots are limited.

Honoraria will be provided for mileage, meals and thanks for your attendance.

May is Vision Health Month

Living with diabetes can affect more than just our blood sugar levels. Diabetic retinopathy happens when high blood sugar levels cause the blood vessels in our eyes to swell and leak out into the retina. New blood vessels can also grow which causes more damage.

Statistically, nearly all those with type 1 diabetes and 60% of those with type 2 diabetes will develop some form of diabetic retinopathy within the first 20 years after the onset of diabetes.

The first few stages of diabetic retinopathy may not have any symptoms. The following are symptoms of diabetic retinopathy that we would usually see in the later stages:

- Dark spots in your visual field
- Blurred, distorted or double vision
- Large “floater” (dots, circles, cobwebs moving across the field of vision)
- **Any of these symptoms warrant a visit with the eye doctor immediately.**

With early detection, treatment of diabetic retinopathy is often quite successful and can prevent any further eye health damage.

Pikwakanagan Health Services has partnered with IDHC (Indigenous Diabetes Health Circle) to be able to provide screening for Diabetic Retinopathy for those in our community living with diabetes. The program uses a portable camera to take 4 images of your eyes. These images are then uploaded and analyzed by Health Canada approved software. After the screen, an electronic report will indicate either a positive or negative result... this is NOT a diagnosis though, it's a screening. Every positive result will be sent to Vision Loss Rehabilitation Canada (VLRC). The positive screens will indicate what stage has been detected by the screen (there are 4 stages of diabetic retinopathy). VLRC will then forward the screen to Ophthalmology partners for review and confirmation and then follow-up with referrals for positively screened clients to additional services as needed.

We will be having our first clinic on May 18th and more throughout the year.

Please contact Natalie through email at dibetic.navigator@pikwakanagan.ca or through talk or text at 613-401-3679 to be put on a call list for upcoming diabetic retinopathy screening clinics.

CARE AND MAINTENANCE OF ON-SITE SEWAGE SYSTEMS

- **Do not allow** roof drains to discharge to the septic tank or surface waters to drain towards the leaching bed.
- **Keep your domestic water usage to a minimum.** If automatic washers and dishwashers are used, make sure full loads are washed each time. Excessive use of water could flush solids from the tank to the leaching bed.
- Moderate use of household drain solvents, cleaners, disinfectants should not interfere with the operation of the sewage disposal system; however, **indiscriminate use may cause problems.**
- There should be **no need** to use "starters".
- **The septic tank should be inspected at least once every two years and pumped when necessary - every 3 or 4 years is suggested.** Failure to pump out a septic tank when required may result in sludge or scum being carried over to the leaching bed resulting in soil clogging and pre-mature failure of the system.
- **The performance of the effluent filter must be monitored** closely; clogged filter can lead to a sewage backup into the house or leak onto the surface from the septic tank. **Clean baffle filter** by washing it with water using garden hose while lowering into the first chamber of the septic tank periodically or whenever required. This practice will help to prevent clogging.
- **Vehicular traffic and storage** such as cars, snow machines should not be allowed on the leaching bed. They may crush the plastic pipe with excessive weight and result in the pre-mature replacement of the septic system.
- **The leaching bed area should have a good cover of grass, and adequate exposure to the sunlight to enhance evaporation process.** Shrubs or trees should not be allowed to grow **within 3 meters** of the leaching bed area as their roots can reach into the pipes and cause clogging.
- **The tile bed area should be maintained by the homeowner.** The grass should be cut regularly to allow the tile bed to breathe.
- **Gardens are not recommended to be planted on a tile bed.** The root vegetables may absorb sewage effluent and cause health problems. Better be safe than sorry.
- **Playgrounds for children are wonderful; however they should not be placed on top of a septic system.** The wooden structures that some are made of may penetrate the pipes and break them.
- **If you are experiencing problems with your septic system please contact community's Housing / Public Works Department or a Licensed Septic System Installer (whichever is applicable to you).** A licensed installer will be able to run the diagnostics on your system and in return provides you a list of possible remedies available.
- Contact your community's Environmental Public Health Officer (FNIHB) by calling the numbers listed below or through the community's administration office to schedule a sewage system inspection to determine if the problem is posing a health hazard to the residents, homeowners and neighbours.
