GROUND *ed* Wellness

Reconnecting with Traditional, local plants for nourishment and medicine

Steven Martin, MA of Traditional Land Use in the Southern Algonquin Bioregion and previous professor at Algonquin College, will lead this 10-day program with a focus on health, well-being and rekindling traditional indigenous values through working intimately with the land.

Dates and learning:

Classes will be progressive in nature (building from the previous class), and will run from 9:00-3:00 pm (with lunch offered)

April 28th: Trees, harvesting sap and bark for food and medicine

May 15 & May 26th: Harvesting nutritional sweet roots before they shoot and the first greens like fiddle heads and leeks

June 16th: Starting seeds, ground prep and other aspects of agriculture and planting

July 14th & 21st: Herbal medicine, because it's the best time for arial harvesting and identifying the wild plants

August 9: Harvesting wild rice and berries (processing and storing)

Sept: 8th & 29th: fruit and nut harvest (processing and storing)

Oct: 13th: harvesting roots for food as well as learning how to process and store them. And seed collecting

What to bring

- smudge and/or offerings (dried cedar or sage, tobacco, sweetgrass, other resins or aromatics)
- a good knife is helpful but not essential (small and sharp is better than big and dull), clippers (optional), hand trowel or small shovel, work gloves, natural bug stuff.
- something portable to sit on, if you are not comfortable on the ground. Some chairs are available (let staff know if you will need)
- water bottle
- Lunch (farm-fresh) will be served. Bring extra snacks for throughout the day, if needed.

Black Bear Sightings

Black Bear Sightings at Algonquins of Pikwakanagan

Bears usually avoid humans, but they will be attracted to your neighbourhood by strong food aromas, the scent of garbage, cooking smells, ripe fruits and pet food left outside. If bears learn that they can find food where people live, they will often return many times as long as the food source is available. They will even try to enter buildings.

The best way to prevent conflict with bears is to avoid attracting bears to the neighbourhood by eliminating attractants.

To avoid bear encounters, please consider the following tips:

Garbage:

- put garbage out only on the morning of garbage day, not the night before
- put meat scraps in the freezer until garbage day
- put garbage in containers that have tight-fitting lids and store it in a bear-proof location such as your basement or a sturdy garage
- frequently wash garbage cans and recycle containers and lids with a strong-smelling disinfectant, such as bleach

Barbecue:

- burn off food residue and wash the grill right away
- empty the grease trap every time you barbecue
- remove all utensils, dishes and food after eating
- be aware that cooking odours can attract bears

Pet food:

- do not leave pet food outdoors, in screened-in areas or porches

Bears returning repeatedly to a food source can lead to a more dangerous human-bear conflict and result in the potential dispatch (killing) of the bear. The Ontario Ministry of Northern Development, Mines, Natural Resources and Forestry (OMNDMNR) is responsible for managing nuisance Black Bears and may be mobilized for such purpose if a situation arises.

FLOOD SAFETY

Renfrew County and District Health Unit
"Optimal Health for All in Renfrew County and District"

For Immediate Release

(Pembroke, Ontario, 3:50 p.m. April 19, 2023)

Flood Water Safety

The Ministry of Natural Resources and Forestry has issued a Flood Warning for [Pembroke District](#) and [Bancroft District](#); this includes Renfrew County, and the Township of South Algonquin. Rising water levels may pose a threat to the health and safety of residents.

Flood water and water ponding around wells can affect the safety of your drinking water. Renfrew County and District Health Unit is recommending that residents with water wells **in contact with flood water**:

1. boil their water for one minute at a rolling boil before drinking, food preparation or brushing teeth with the water,
2. use bottled water or,
3. use water from an alternate potable water source.

Well water should be tested for bacteria after flood waters recede. Water sample bottles can be picked up and dropped off at the Renfrew County and District Health Unit. For more locations, visit <https://www.rcdhu.com/healthy-living/safe-water/>.

During floods, the ground can become saturated, preventing proper operation of septic systems. If your septic system has been affected, avoid using the septic system if possible, or reduce the amount of water used by limiting toilet flushing, dishwashing, washing clothes, and showering.

Do not pump your septic system when the ground around it is still saturated. High ground water levels may cause an empty septic tank to float out of the ground and damage the inlet and outlet fittings.

Flood waters can be contaminated with sewage and cause illness. The following tips will help protect your family during flooding events:

FLOOD SAFETY

- Keep your family safe by keeping family members and pets away from and out of the flood water.
- DO NOT enter areas where electrical systems have been affected by flood water, as there is a risk of electrocution. Always wait for clearance from an electrical authority before entering these areas.
- Building materials, clothing and furniture exposed to flood waters may be contaminated with sewage or other hazards and can support the growth of mould. Some items can be cleaned and disinfected; others may need to be thrown out.

Visit <https://www.rcdhu.com/healthy-living/emergency-preparedness/be-flood-ready/> for more information on what to do before and during flooding events.

Visit the Ministry of Natural Resources and Forestry: [Flood Forecasting and Warning Program \(gov.on.ca\)](http://gov.on.ca) daily to view your community flood risk.

For more information, visit <https://www.rcdhu.com/healthy-living/emergency-preparedness/>, call 1-800-276-1097 extension 505, or email environmentalhealth@rcdhu.com.

Public Health Alert

Indigenous Services
Canada

Services aux
Autochtones Canada

Important Public Health Alert:

There has been a recent media report of a dog eating a dead goose, in the Greater Toronto Area (GTA), on April 1st 2023, then becoming ill and dying as a result of an Avian influenza (bird flu) infection. This is an extremely rare event, but it reminds us that there are some important things to think about when hunting and handling birds.

The Canadian Wildlife Health Cooperative confirmed last Thursday that avian influenza was the cause of death of waterfowl found in a stormwater pond in Bolton Ontario, two weeks ago. Canada's health agency said that the risk to the public remains low based on current evidence. Scientific evidence suggests that the risk of a human contracting bird flu from a domestic pet is minor.

Pet owners are advised not to feed pets, especially dogs and cats, any raw meat from game birds or poultry and *not to allow pets to consume or play with dead wild birds found outside*. Owners are urged to contact their veterinarian if they have questions about their pet's health.

Avian influenza infections should not affect plans for hunting birds, below are precautions that hunters can take to minimize risks when hunting and handling wild birds:

- *wash hands often (or use hand sanitizer) when handling birds or eggs, and before eating or smoking.*
- *wear protective clothing such as boots when walking into nesting sites and disposable gloves when handling birds and when picking up and brushing off eggs.*
- *limit contact with blood, feces, or secretions of harvested birds and when finished, clean work surfaces thoroughly with soap and water followed by diluted household bleach.*
- *ensure that birds and eggs are fully cooked before eating.*
- *if you become ill after handling wild birds or eggs, seek medical attention and let your health care provider know that you were handling wild birds. care providers and let them know that you were handling wild birds.*

Respectfully,

Melissa Pessedawatch, CHR
