Celebration of Life – Tomas Sarazin

Thomas R. Sarazin

It is with heavy hearts we announce the sudden passing of Thomas R. Sarazin (Tom) on May 20th, 2023 at the age of 51. He will be deeply missed and forever remembered by all those who were fortunate enough to have known him.

Tom was born to Jacqueline and Stanley Sarazin on April 14th, 1972 in Pembroke, ON. Dear father of Dean, Britney, Sasha (Justin) and Phoenix, and loving Papa to Delylah and Ella. Beloved brother of Greg (Helen), Henry (Donna) and Joe (Rachell). He is predeceased by his father Stanley, brother Paul and sisters Peggy and Gloria.

Tom was a huge fan of Harley Davidson and rock music. He lived and breathed both of these passions, often spending hours on his bike listening to his favorite bands. When he rode his Harley he was filled with a sense of freedom and exhilaration that was unmatched.

He was a kind hearted man who had a contagious smile that could light up the room and a heart of gold that knew no bounds.

We are deeply saddened by the loss of Tom but take solace in knowing that he loved his life on his own terms and left behind a legacy that will live on forever. He may no longer be here with us but his spirit and love will forever be with us.

Terms of Reference

1. Purpose

Algonquins of Pikwakanagan First Nation (AOPFN) is undertaking an Algonquin Knowledge and Land Use Study (AKLUS). The primary goal of the study is to better document, understand and convey potential impacts of these projects on AOPFN Indigenous rights and culture.

AOPFN is issuing an RFP to qualified consultants to develop and conduct an AKLUS in relation to the NCAWCP-ABRP/ESAP over a period of seven (7) months. The project will conclude with the submission and verification of three (3) final reports submitted by the Consultant and verified by the AOPFN. The successful consultant will demonstrate their experience and expertise developing and conducting like studies or projects, and a proven successful track record working with First Nations.

2. Introduction and Background

The Algonquin community of Pikwakanagan is located in the Ottawa Valley 145 km west of Ottawa, 12 km from Eganville and 45 km from Pembroke. AOPFN considers itself to be relatively remote and isolated community, covering 1745 acres on the south shore of the Bonnechere River. There is an approximate population of 480 residing in Pikwakanagan and 3400 members residing off reserve. The community was originally established in 1857 when the Algonquins, who were traditionally nomads were roaming the Ottawa Valley. They were then ordered to settle on reserved land and twelve founding families agreed to resettle on the 1745 acres.

The Algonquins of Pikwakanagan First Nation Traditional Territory includes an area of 9 million acres within the Ottawa River watershed and the Mattawa River watershed in Ontario.

3. Study Area

The study area is comprised of the Pikwakanagan First Nation land base and in and around the Projects area, more specifically, in the National Capital Region where both the ABRP and the ESAP take place, on the unceded traditional territory of the Algonquins of Pikwakanagan First Nation.

Request for Proposals

RFP Algonquin Knowledge and Land Use Study (AKLUS)

4. Scope of Work

The Consultant will be required to work with AOPFN community, knowledge holders, building on existing data and building new data.

Through funding support by PSPC-ESAP and PSPC-NCAWCP-ABRP, AOPFN aims to complete an Algonquin Knowledge and Land Use Study in the National Capital Region (NCR) with respect to the ESAP project and the Alexandra Bridge Replacement Project.

To do this work, the Consultant must:

1. Perform background research and analyze existing data with respect to AOPFN Algonquin Knowledge and Land Use in unceded Algonquin territory, including a community meeting in person;
2. Perform a series of AOPFN Knowledge Keeper and on-territory interviews; costs must be provided per interview. Maximum number of interviews will be 30 for AOP members and 20 minimum interviews of AOP members.
3. Perform mapping and Algonquin land use; and
4. Identify implications of these proposed projects with respect to AOPFN knowledge, land use and valued components.

Findings from the AKLUS will help support PSPC and AOPFN's agreement to collaborate on monitoring and mitigation strategies for the proposed ESAP project.

5. Additional Resources

The Consultant will be responsible to work with 1 AOPFN Project Coordinator that will assist and be the main contact point within the community for the Study.

6. Community Engagement and Meeting Requirements

The proposal must include a description of the purpose, type, proposed outcome, and number of meetings and engagement opportunities proposed for on and off reserve membership, Consultation staff, key informant interviews and Chief and Council. Meetings and interviews will be held in Pikwakanagan, virtually or in the territory.

7. Available Information

Pikwakanagan's Consultation department will provide reference documents as necessary and when available.

8. Work Plan

The proposal must provide a work plan indicating the timing and break down of costs for conducting each of the phases of the Study, the approximate timing for the various tasks included, the cost of each of the phases broken down by task and the date of final submission to the Pikwakanagan First Nation.
