Centre for Valvular Heart Disease Mobile Screening Program

Available November 7th and 8th, 2023 at Pikwakanagan Health Services

WHAT? A free valvular heart disease and cardiovascular risk factor screening performed by a nurse, cardiac sonographer, and overseen by a cardiologist.

WHY? Valvular heart diseases are dysfunction of cardiac structures directing blood flow within the heart. Valvular heart disease is considered the next cardiovascular epidemic, affecting hundreds of thousands of people in Canada, yet it is often left undetected and undertreated. This program offers early detection and prevention of severe complications.

HOW? The sonographer will perform a mini ultrasound to look for valvular heart disease. The nurse will screen for cardiovascular risk factors through questions, measurements, and rapid finger poke blood tests. The cardiologist will review results and recommendations will be provided.

WHO? Anyone 65 years and older with no known cardiovascular history (heart problems).

Don't miss this opportunity! Limited space available, sign up NOW by calling 613-696-7000 ext 19172 or emailing cvhd-msp@ottawaheart.ca.
