Solar Eclipse

April 8, 2024
Between
2pm & 4:30pm

On April 8th, 2024, the Algonquins of Pikwakanagan First Nation will be under a partial solar eclipse. Viewing the sun with your naked eye at any point of the eclipse is dangerous and can burn your retina, causing vision damage. With most of the Sun covered by the Moon, the reflex urge to squint and look away is reduced. Please consider keeping pets and young children indoors for the afternoon.

To prevent retinal damage:

- Do not look at the solar eclipse without ISO-certified eclipse glasses (sunglasses are not good enough!).

ISO-certified eclipse glasses will be available for pick-up at Health Services, Admin Building, and Makwa Centre.

(limit 2 per household, while supplies last)

As it will be darker than normal in the afternoon, please be cautious while driving or walking.

COMMUNITY FISH HARVEST

Pikwakanagan Fish Harvesters:

We need your help to provide fresh fish to our Elders and Community members. Many do not or can not do this any longer for various reasons.

If you can harvest 6 fish per boat each night you are out for the Community and our Elders that would be greatly appreciated.

Please clean and fillet your fish and call me for pick up and distribution.

Please try to not harvest any walleye in Golden Lake, if you must please do not spear any females as our walleye population has drastically decreased quite a lot over the years.

Harvest Responsible – only take what you need.

Thanks very much Councillor Dale 613 401 - 3180

Notice of Public Information Centre 2

Ministry of Transportation, Ontario

Preliminary Design and Class Environmental Assessment Study

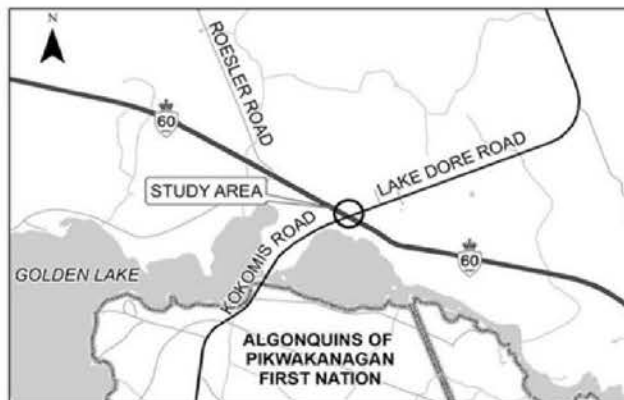

Highway 60 and Lake Dore Road/ Kokomis Road, Township of North Algona Wilberforce, County of Renfrew

(Project Reference: GWP 4137-21-00)

Study Overview

The Ministry of Transportation, Ontario (MTO) has retained Dillon Consulting Limited (Dillon) to conduct a Preliminary Design and Class Environmental Assessment (EA) Study for improvements to the intersection of Highway 60 and Lake Dore Road/Kokomis Road, located in the Township of North Algona Wilberforce, County of Renfrew (see map inset below). The purpose of this study is to generate and evaluate options to improve the operational and geometric conditions of this intersection. The study will also assess the impacts associated with the proposed improvements and identify mitigation measures to avoid or offset negative impacts, where feasible.

A Public Information Centre 1 (PIC #1) was held for the project in June 2023 and five (5) short-listed alternatives were presented, along with the proposed criteria to be used as part of a comparative evaluation to identify a Technically Preferred Alternative (TPA). Based on the comments received at PIC #1 and further design reviews, the project team identified the need for additional consultation and refinements to the alternatives. Two (2) short-listed alternatives were subsequently screened out from further consideration, leaving three (3) alternatives that were evaluated to identify the TPA.

Public Information Centre #2

A second PIC will be held to present the results of the comparative evaluation of the three short-listed alternatives and the recommended TPA, as well as to provide an opportunity to review and comment on the proposed design, potential effects, and proposed mitigation measures on the following date/location:

Date: April 17, 2024

Time: 4:00 p.m. to 8:00 p.m.

Location: Golden Lake Community Hall, 3310 Lake Dore Rd, Golden Lake, Ontario, K0J 1X0

The Process

The study is being completed in accordance with the *Class Environmental Assessment for Provincial Transportation Facilities (2000)* as a Group 'B' project. A Transportation Environmental Study Report (TESR) will be prepared for a 30-day public review towards the end of the study. The TESR will describe the EA process, evaluation and selection of the TPA, the Preliminary Design of the TPA, and recommended environmental mitigation measures.
