CHIEF & COUNCIL UPDATE

June 27th, 2025

The aftermath of the storm that ripped through our community over the weekend continues to be felt but there is light at the end of the tunnel. On behalf of the Algonquins of Pikwakanagan First Nation Council and our entire community, Chief Greg Sarazin expresses deep gratitude to all those who stepped forward in the face of the extreme weather that recently swept through our community. This storm brought great challenges to our people and our infrastructure — but it also revealed the strength, heart, and resilience that defines our Nation.

Thanks to our emergency management plan—and the dedication of our team, volunteers, and first responders—we were able to respond quickly, keep our community safe, and prevent greater harm. This storm has proven the importance of preparedness and working together as one.

We also recognize the challenges we faced—including resource limitations. We are taking these lessons to heart. This experience is helping us strengthen our emergency response, improve coordination, and build greater resilience for the future. Our community has always learned through adversity, and this is no different—we will emerge stronger and better prepared.

Chief and Council also take this opportunity to remind members of the importance of their own emergency preparedness such as developing plans and building an emergency kit with enough supplies for 72 hours. Discuss your plan with other close contacts so they know what you would do in an emergency. Together, we can be a lot safer and look after our loved ones.

Community Update #4

Regarding the Near Surface Disposal Facility (NSDF) proposed for Chalk River Labs Kebaowek First Nation (Appellant) vs Canadian Nuclear Laboratories (Respondent) & AOPFN (Intervener)

Background:

- The Near Surface Disposal Facility (NSDF) would be a nuclear waste disposal facility designed to safely and properly store low-level radioactive waste. It is proposed to be built at the Chalk River Labs in Chalk River, within AOPFN's unceded traditional territory. Low-level waste is the least impactful of radioactive waste types and most of the waste would be from past, existing and future operations at Chalk River Labs.
- In 2023, AOPFN provided its free, prior and informed consent for the NSDF to be built, in large part because the NSDF would consolidate existing low-level waste (most of which has been historically stored in conditions that are not considered the most protective to the environment) in a single, modern, safe facility with a water treatment plant. This will help protect the lands and waters within AOPFN's unceded traditional territory and in addition, AOPFN's consent was provided in exchange for a meaningful role in the future monitoring, management and planning of activities at the Chalk River Labs, among other benefits to the AOPFN Community.
- KFN filed a Judicial Review of the Canadian Nuclear Safety Commission's (CNSC) decision to approve construction of the NSDF project. A Federal Court hearing took place in the summer of 2024, that both KFN and Canadian Nuclear Laboratories (CNL- which manages the site on behalf of Canada) spoke at. In February 2025, Justice Blackhawk of the Federal Court decided that the CNSC erred in not considering the United Nations Declaration on the Rights of Indigenous Peoples (UNDRIP), Canada's United Nations Declaration on the Rights of Indigenous Peoples Act (UNDA), and KFN's right to free, prior and informed consent (FPIC) in its decision that the duty to consult was met in relation to the NSDF. Justice Blackhawk ordered CNL and the CNSC to resume consultation with KFN, to be completed by the fall of 2026.
- CNL filed an appeal of Justice Blackhawk's decision at the Federal Court of Appeal on April 14, 2025.

Impact to AOPFN:

- CNL's arguments in the appeal, if they are accepted by the Court, have the potential to negatively impact AOPFN's FPIC and proper applications of UNDRIP and UNDA for future proposed projects.
- If the Federal Court's decision about how regulatory bodies like the CNSC must consider UNDRIP, UNDA and FPIC in the duty to consult analysis is overturned, there is a risk that proponents will no longer feel compelled to engage AOPFN to the level we have been asserting with our Consultation Protocols. This includes but is not limited to, providing or withholding consent, accessing business opportunities, culture protection and promotion, and upholding our inherent responsibilities as caretakers of the land.

AOPFN Responses:

- To keep Membership informed, AOPFN has posted three separate Community Updates (Mar 14, Mar 28 and May 16, 2025) in the AOPFN Newsletter.
- On May 9, 2025, it was decided by AOPFN's Chief & Council with support of the Consultation Department, that it was in AOPFN's best interest to apply to intervene in this appeal.
- AOPFN's request to Intervene was granted by the Federal Court of Appeal on June 12, 2025. AOPFN will file a memorandum of fact and law of 15 pages and participate in the hearing. The hearing date will be the week of October 6-9, 2025. As an intervener, we will not oppose the NSDF Project (as AOPFN continues to support the NSDF) but rather assist the Federal Court of Appeal to understand the full and proper implementation of UNDRIP, UNDA and FPIC in Canadian law.

Closing:

- AOPFN does not, and never has, claimed to speak for all Algonquins on this or any other matter and we respect the rights of other Algonquin nations, Canada's duty to consult, and Canada's responsibility to uphold the United Nations Declaration on the Rights of Indigenous Peoples and Indigenous Rights to free, prior, and informed consent.
- Protection of the lands, waters and wildlife is always our top concern. The AOPFN will continue to inform proponents in respect to our Consultation & Engagement Protocols & Requirements in relation to projects in AOPFN's unceded traditional territory.

Consultation & Engagement Department

Community Update

AECL's GoCo Announcement on June 12, 2025

Nuclear Laboratory Partners of Canada Inc. is the preferred bidder for the CNL Management Contract

Background:

- Canadian Nuclear Laboratories (CNL) operates on a Government Owned Contractor Operated (GoCo) structure.
- Since September of 2015, the contract has been fulfilled by Canadian National Energy Alliance, a consortium currently made up of three partner companies – Atkins Realis, Jacobs Engineering and Fluor Federal Services. This contract is about to expire in September 2025.
- Atomic Energy of Canada Limited (AECL) announced on June 12, 2025, that the new preferred bidder to take over the contract as of September 2025, to be Nuclear Laboratories Partners of Canada Inc.
- This new CNL 'operator' is a partnership with three primary joint venture partners; BWXT Government Group, Inc., Amentum Environment & Energy, Inc., and Kinectrics Inc., with Battelle Memorial Institute included as a key subcontractor.

Impact to AOPFN:

- There is little impact on AOPFN with this administrative change in who manages Canadian Nuclear Laboratories (CNL), which is an enduring entity created by the Government of Canada to manage Chalk River Laboratories and the Nuclear Power Demonstration Project in AOPFN's unceded traditional territory.
- AECL has previously informed AOPFN that only the upper management of CNL will change, while the vast majority of the CNL staff that AOPFN staff work with on a regular basis, will stay in their current positions.
- In addition, all existing relationship obligations between CNL, AECL and AOPFN, especially the Long-Term Relationship Agreement (LTRA) signed in 2023, will remain in place and must be fully respected and implemented by the new management of CNL.

AOPFN Key Messages:

- Our Nation acknowledges the announcement of the new CNL operators taking over management of the Chalk River Laboratories and Nuclear Power Demonstration Project nuclear sites located within AOPFN's unceded traditional territory.
- We recognize that any change in operational leadership does not change our rights, existing relationship with CNL and AECL, or our expectations for respectful engagement and accountability, as per the LTRA.
- We expect to meet very soon with the new management, to let them know what their obligations are to AOPFN and begin building a relationship with that new management team that is based on trust, respect, and truth. Engagement will begin immediately and include meaningful dialogue—not after plans are finalized, but before any operational decisions are made.
- AOPFN will be monitoring how the new operator's plan to manage the site, communicate with Pikwakanagan, and respect our role in environmental stewardship. We expect open disclosure of risks, plans, and opportunities for our leadership to review and respond.
- AOPFN will hold CNL responsible through our Neyagada Wabandangaki Guardian Program (NWGP), our LTRA Working Group, our Radioactive Waste Communication and Monitoring Strategy, and the Leadership Table between the parties, to name just a few of the mechanisms we have in place, for overseeing CNL activities in AOPFN's unceded traditional territory.
- Pikwakanagan is committed to keeping our members informed and involved. We will continue to advocate strongly for our rights, health, and safety, and will take all necessary steps to ensure our voices are heard.

History & LTRA:

- For nearly 80 years, nuclear activities have taken place within the unceded traditional territory of the Algonquin Anishinaabe, including Chalk River Laboratories, Canada's largest nuclear research facility.
- Prior to 2019, AOPFN was not consulted or informed about nuclear projects or the importation of radioactive waste, and certainly not provided an opportunity to provide our free, prior and informed consent to the Chalk River Labs.
- This lack of consultation was an important contributing factor to the secrecy, fear, and mistrust among AOPFN people regarding nuclear sites.
- Since 2020, AOPFN has engaged in meaningful consultations with Canadian Nuclear Laboratories (CNL – the site operator/manager) and Atomic Energy of Canada (AECL – the Crown body that owns the site on behalf of Canada).
- AOPFN's active pursuit of consultation in the early 2020's led to significant changes, resulting in a Long-Term Relationship Agreement (LTRA) with CNL and AECL.
- The LTRA, signed in May 2023, establishes a process for ongoing consultation and accommodation, with legally binding commitments to protect the land, monitor activities, and joint planning related to new projects at Chalk River Labs and radioactive waste management.
- The LTRA ensures AOPFN involvement in all future CNL/AECL activities within the territory from the initial planning stages and grants access for independent testing and monitoring, regardless of what group is managing CNL.
- This marks the first time AOPFN is exercising control over nuclear activities in Algonquin territory, a responsibility we take very seriously.

AOPFN Limited Partnership

May 2025

To all AOPFN Band Members

Re: Kilby Property 12127 & 12239 Highway 60 (Farm and Beach Property)

The Kilby Farm and Beach Property was purchased in 2021 by 2480446 Ontario Inc., AOPFN's land holding corporation. **The property is managed by AOPFN Limited Partnership** for economic development purposes.

In the past, there has been confusion and misunderstanding regarding the usage of this property. Some band members have used the property without permission. A small number of individuals have also caused damage. Unauthorized use and damage create significant risks for AOPFN, including legal liabilities and increased insurance costs.

The Kilby Farm property is NOT a park or a campground. The property should be treated like any other part of our community that has been allocated to a specific purpose.

Unauthorized use of the property will not be tolerated.

The AOPFN Limited Partnership will notify the OPP of any unauthorized access or damage to the property.

Unauthorized use will result in **trespassing** charges. The OPP is prepared to press **more severe charges** if damage occurs.

The Kilby Farm and Beach Property needs to be maintained and protected for uses that benefit the community as a whole; it is not for individuals to use for their own entertainment.

Thanks for your cooperation. We wish you a happy and safe long weekend!

STAY SAFE THIS SUMMER

EXTREME HEAT SAFETY

WHO IS AT RISK?

- Infants
- Pregnant Women
- Older Adults
- People who live alone
- People with chronic medical conditions
- People with limited mobility
- People who exercise outdoors
- People who work outdoors

IF FEASIBLE CHECK UP ON FRIENDS AND FAMILY WHO ARE AT RISK

HOW TO PREVENT HEAT ILLNESS

If you feel dizzy, weak, or over heated

- Immediately move to a cool place
- rest by sitting or laying down
- Drink water

STAY COOL

dress in light colored, loose fitting clothing, wear a hat and apply sunscreen

COOLING OPTIONS:

- Community swimming pools
- splash pads
- air conditioned buildings

STAY HYDRATED

Drink water throughout the day to replace fluid lost to sweat & heat. Don't wait for extreme thirst to drink.

PREPARE FOR EXTREME HEAT

Prepare emergency kits
Arrange regular wellness check – ins or visits with at risk individuals

IF YOU ARE OUTDOORS

- spend the hottest part of the day inside (between noon & 2pm)
- Take breaks and let your body rest
- drink lots of water

Algonquins of Pikwakanagan
First Nation

SPF

is your

BFF

**EXCESSIVE SUN EXPOSURE CAN
LEAD TO SUNBURNS, PREMATURE
AGING, AND AN INCREASED RISK
OF SKIN CANCER.**

Sun Protective Measures

- **Seek shade:** especially when the sun is at it's strongest (10am-4pm)
- **Wear protective clothing:** long-sleeved shirts, pants, and a wide brimmed hat
- **Wear sunglasses:** look for sunglasses that provide 100% UV protection
- **Apply sunscreen:** Use a broad-spectrum sunscreen with an SPF of 30 or greater. Apply it to all exposed skin. Reapply every two hours or sooner if you are swimming or sweating.

FROM: MELISSA CHR & LEAH CHN

COMMUNITY BASED - WATER MONITORING PROGRAM

SUMMER IS HERE!! For the 2025 season, the Community Health Representative will be hiring a “water testing personnel” to test all AOP homes and business. We will be testing your drinking water for safe consumption under the Community-Based Water Monitoring Program, implemented by First Nations and Inuit Health Branch, Indigenous Service Canada.

Testing your Water: One sample will be taken from your kitchen faucet and evaluated for the following:

- o Coliform Bacteria – Total coliforms are a group of bacteria commonly found in the environment, for example in soil or vegetation, as well as the fecal of mammals, including humans. Total coliform bacteria are not likely to cause illness, but their presence indicates that your water supply may be vulnerable to contamination by more harmful microorganisms. and
- o E. coli – Total E. coli in your water indicates recent fecal contamination and may indicate the possible presence of disease-causing pathogens, such as bacteria, viruses, and parasites. Although most strains of E. coli bacteria are harmless, certain strains E. coli, may cause certain illness.

Overall, WELL water can affect the **health of everyone** who consumes water from your home. Your water may look, smell, and even taste fine, but that does not mean it is actively healthy.

For more information contact chr@pikwakangan.ca or 613-625-2259 ext. 224

WARNING SIGNS FOR HEART ATTACKS

For men or women, most heart attacks start slowly with chest pain or discomfort. Women are more likely to also experience shortness of breath, nausea/vomiting, and back or jaw pain.

Warning Signs Include:

- **Chest discomfort.** Most heart attacks involve discomfort in the center of the chest that lasts more than a few minutes, or that goes away and comes back. It can feel like uncomfortable pressure, squeezing, fullness or pain.
- **Discomfort in other areas of the upper body.** Symptoms can include pain or discomfort in one or both arms, the back, neck, jaw or stomach.
- **Shortness of breath** with or without chest discomfort.
- **Other signs** may include breaking out in a cold sweat, nausea or lightheadedness.

CALL 911
immediately if
someone with you
has one or more of
these warning
signs.

WARNING SIGNS FOR STROKES

SUDDEN
numbness or
weakness of face,
arm or leg,
especially on one
side of the body

SUDDEN
confusion,

OPP Community Street Crime Unit in Renfrew County have established a drug tip line for Pikwakanagan First Nation. The number is:
613-689-0805.

The tip line will be monitored by Detectives within the Community Street Crime Unit (CSCU). Messages will be checked regularly. If the caller wishes to be called back, an investigator will return the call.

This line is only intended for drug-related information.

Any emergency requests for police assistance or other call for service should go through normal channels.

Renfrew County Crimestoppers is still available for drug and non-drug related tips.

- Pikwakanagan Drug Tip Line: 613-639-0805
- Renfrew County Crimestoppers: 1-800-222-8477
- Any Emergency call: 911
- OPP non-emergency line: 1-888-310-1122

AOPFN EMPLOYMENT OPPORTUNITY

Resource Teacher

Department: Mindiwin Manido Day Care

Supervisor: Daycare Supervisor

\$49,628/ annually - 35 hours a week - Full-Time Permanent

Deadline to Apply: Posting will continue until roles are filled.

In collaboration with and in partnership with families, colleagues and community programs/services, the Resource Teacher is responsible for supporting the integration and full inclusion of children with diverse needs. The Resource Teacher is responsible for providing high quality childcare within a safe and healthy environment and ensures compliance with relevant legislation, AOPFN policies and procedures, and the College of ECE's Standards of Practice and Code of Ethics. The Resource Teacher also provides age-appropriate programming in a group setting that meets diverse needs and promotes optimum physical, emotional, social, cognitive and intellectual development of the children in care.

- Creates an environment conducive to the learning of Algonquin culture and language development and appropriate to the physical, social, intellectual, and emotional development of the children.
- Receptive and sensitive to Algonquin language and cultural practices.
- Application and knowledge of the Ministry of Education's pedagogy under the COEYA, 'How Does Learning Happen?'
- Based on professional independent assessments, develop and implement Individual Developmental Programs to enhance children's cognitive, physical, social and emotional development in accordance with organizational and legal guidelines, as follows:
 - Provide a daily balance of active/quiet, indoor/outdoor, and individual/group activities.
 - Establish and carry out a daily activity schedule that incorporates child directed activity, physical care routines and transition times.
 - Assist children in expressing themselves by listening and responding with questions or comments that extend conversations.
 - Prepare appropriate materials and equipment and set up areas for planned activities.
 - Support positive experiences and outcomes and provide a welcoming and nurturing

For full Job Description, please email hr@pikwakanagan.ca

REQUIREMENTS:

- Successful completion of Post Secondary Education Diploma in Early Childhood Education with a combination of certificates and training that is both theoretical and practical and relates to the needs of children with diverse needs.
- 1-year experience working in a position that includes support for and care of children with diverse needs.

CONDITIONS OF EMPLOYMENT:

- Vulnerable Sector Checks, annually per the Childcare and Early Years Act and associated regulations.
- Proof of Education, equivalency and/or work-related experience, as requested.
- Proof of Registered Early Childhood Educator (RECE) membership with the College of Early Childhood Educators in good standing.
- Valid Standard First Aid Certification including infant and Child Cardiopulmonary Resuscitation (CPR).
- Submission of an up-to-date Immunization Record, annually.
